

LUKE JERMAY - FROM THE SHADOWS

I am Luke Jermy and I have lived a life consumed by mystery. For as long as I can remember I have felt an irresistible draw to all things strange and magical.

You might know my work as a mentalist. There is another side to my passion for the mystery arts. A side that you might not know. A side that, outside of my friends has remained hidden in the shadows, until now.

Magic.

Playing cards that appear, vanish and travel as gracefully as the birds flying south for the winter. Solid silver coins that impossibly penetrate solid table tops under the strictest of conditions. Random actions inexplicably creating spooky action at a distance, reminding us that with the right magic no matter how impossible the circumstances seem, it is never too late to transform.

Beautiful, impossible, mysterious magic.

I invite you to join me in a celebration of pure conjuring. Not a single mind will be read. Instead together we will explore some of my favourite original conjuring creations. Each effect is designed to be performed in real world close up settings and no detail will be left out. Alongside the methods, techniques and secrets I will also share some tips and ideas to help you create your own beautiful, impossible, mysterious magic.

I love this material. I love performing it. I love sharing it.

At the very core, I love magic. I suspect you do as well, so what could be better than spending a few hours together talking about the thing we love the most?

I can't wait for the conversation to start...

Luke Jermy
