

Monday 20th September 2021 'The Mind of Adam Hudson Lecture'

The lecture will involve original effects written by Adam including several routines that have been published in his three books. Adam has written routines for Genii Magazine, Psycrets Magazine and also Magicseen Magazine. His work has been labelled as 'Inspiring' by Derren Brown and 'Wholeheartedly recommended' by Marc Oberon. Every routine in the lecture is original and perfect for use with virtual audiences. The lecture will include the following...

Sum It Up

Adam's take on the ACAAN plot. Any named card is found at the position generated by adding together four freely chosen numbers. 'Very clever' John Carey

Outdated

A self-working method to reveal any spectator's birthday, using nothing more than a packet of cards. 'Brilliant' Marc Oberon

SPaR

Two different methods to predict the outcome of a game of Rock, Paper, Scissors.

The Hullabaloo Deck

Adam's very own multi-out packet that creates the illusion that any named card has been predicted beforehand.

The Fair and Square Principle

A principle to reveal spectator's PIN codes, thought of times or amount of change in their pocket. The principle was written by Adam and took over a decade to perfect. 'This is purely cerebral mentalism, reminiscent of Martin Gardner' Atlas Brookings

Adam has performed and lectured for audiences all over the country, performed in orphanages in Uganda and done extensive work for BBC Radio.
